## MATERIALS

**ZA** = Zinc Alloy

**ST** = Steel

**HSS** = High Speed Steel

**BR** = Brass

**ABS** = Acrylonitrile Butadiene Styrene

**ZAnk** = Nickel-plated Zinc Alloy

**STzk** = Zinc-plated Steel

**AL** = Aluminium

**WD** = Wood

**EVA** = Ethylene Vinyl Acetate

**EP** = **ENGINEERING PLASTIC**

+ **EP** = other engineering plastic available on request

**SR** = **SOFT RUBBER**

+ **SR** = other soft rubber available on request

**EPn** = Natural Engineering Plastic

**EPc** = Clear Engineering Plastic

**SRn** = Natural Soft Rubber

**EPw** = White Engineering Plastic

**EPg** = Grey Engineering Plastic

**SRw** = White Soft Rubber

**EPwg** = Water Green Engineering Plastic

**SRb** = Black Soft Rubber

ferramenta

## INTEGRATO WITH ZINC ALLOY FOOT

INTEGRATO is a complete family of levellers suitable to align heavy duty wardrobes, bookcases and modular furniture. The leveller is installed and safely fixed onto the bottom of the carcase through a wide range of supports such as pins and screw holes, spikes and screw holes or just screw holes.

A further securement in position can be obtained with a countersunk 4x18 mm length screw from underneath first and then with two panhead 3,5x15 mm length screws from the side if required.

The adjustment of the leveller can be carried out from above through a Ø 8 mm hole on the bottom panel, by using a S6mm allen wrench or both cross and blade screwdriver.

The zinc alloy die-cast foot is provided with an independent engineering plastic glide in order to make the adjustment easier and to prevent the scratching of the floor.

A bespoke spacer can be slotted over the leveller to give an extra structural support to the furniture bottom.

The spacer is available in three heights (see the related page).

175 Kg per piece

INTEGRATO levellers are available with 12 mm adjustment and 25 mm adjustment, with main body in zinc alloy or with engineering plastic.

In any case, all versions of INTEGRATO are capable of supporting a 175 kg load each.

*Tested in accordance with CATAS procedures*
