KIMANA

KIMANA is a flat hinge to open and close flap and drop-down doors. Provided with a unique and exclusive movement, it allows to open cabinet doors in column, even when the cabinet bottom lies upon another panel or the cabinet top is surmounted by a decorative/lighting panel.

The small dimensions ($\varnothing$ 26mm boring for both the door and the bottom), the minimalistic and elegant design contribute to make KIMANA not only a functional hinge, but also a product unique in its genre.

The fixing screws are perpendicular, thus making KIMANA suitable for perfect positioning, as well as for aluminium profiles. KIMANA can be easily adjusted through the screws (PZ2) which are hidden underneath the cover.

Various door and cabinet thickness-combinations can be solutioned either by carrying out the adjustments of the KIMANA or by adding adapters under the hinge clip so that the ideal movement and alignment of the door are guaranteed.

Available in three finishes: standard nickel-plated, black-nickel plated and varnished in graphite colour.

For each finish, matching fixing countersunk screws can be provided.

GOOD DESIGN AWARD, 2012

PAT. PENDING
REGISTERED DESIGN

INSTALLATION ON UNIT WITH SOLID DOOR (Application shown for minimum thickness 18 mm)

INSTALLATION ON UNIT WITH ALUMINIUM DOOR (Application shown for minimum thickness 18 mm)

CASES WHERE TO USE KIMANA

RECOMMENDED NUMBER OF KIMANA PER DOOR

Due to various factors, the quantities stated in the chart are indicative.
